I work four to six days a week, 12 hour shifts and make \$350 to \$550 per shift, but I realize that I just have enough to pay all my bills with nothing left as I look forward to the next paycheck. I go for extra shifts, but that does not help, worst still I end up not having time for myself and not even staying in the house I am paying for. I would like to make some money on my days off working some few hours from my computer, or better still go full time working from home If the above statement sounds like you, the answer is found in this book. -Author.
