Brand New Book ***** Print on Demand *****.On October 8, 2005, a powerful earthquake struck northern Pakistan and India, killing at least 74,000 people and injuring over 70,000 more. The earthquake damaged the homes of millions of people, forcing more than 2.8 million to search for alternative means of shelter. The full extent of the destruction is now being revealed as government authorities and relief organizations are able to access some of the remote locations. The United States government (USG) has pledged \$510 million toward the relief effort, almost all of it to assisting Pakistan, which remains a key U.S. ally in the war against terror. Because of the heavy USG military and development presence in neighboring Afghanistan, the logistics of bringing resources into Pakistan have been relatively straightforward. The USG, Government of Pakistan, and NATO, among others, operated daily relief flights to ferry supplies, personnel, and victims to and from the region.
