Applying Anatomy Physiology Concepts through Active Learning Developed as the companion lab manual to Amerman s Human Anatomy Physiology, Catharine Whiting s lab manual takes an active learning approach that uses a rich variety of hands-on activities, along with guided questions, to engage students and help them apply concepts learned in lecture to lab. The active learning approach to Whiting s Human Anatomy Physiology Laboratory Manual: Making Connections includes unique hands-on activities that use different learning modes including labeling, sketching, touching, dissecting, observing, conducting experiments, interacting with groups, and making predictions. Whiting also includes pre-lab assignments to help students better prepare for lab; and post-lab assignments to solidify learning and challenge students to see interrelationships of concepts across topics. Also available with MasteringAP(R) This title is also available with MasteringAP -- an online homework, tutorial, and assessment system proven to help students learn. It helps instructors maximize lab time with customizable, easy-to-assign, automatically graded assessments that motivate students to learn outside of class and to arrive prepared for lab. The powerful gradebook provides unique insight into student and class performance.
