## SECRETS OF EARTH AND SEA (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.A review from The American Midland Naturalist, Volume 7: Dr. Lankester possesses a vagabond interest that makes his books always new and interesting. In Secrets of Earth and Sea, for example, he goes from the cave-man of ice-covered Europe-to the eruptions of Mount Vesuvius; from an article on the world s biggest animal to a discussion of what is meant by a species. The color of water, the cross-breeding of animals, the nature and mining of coal, and the lives of the little Wheel Animals of our fresh-water ponds all claim his attention. And about all of them he has something to say that is interesting to read, and worth knowing. The book is something of a sequel to the earlier volumes Science from an Easy Chair and Diversions of a Naturalist. The essay articles that compose it have been published at various times in diverse British periodicals and newspapers, and were re-written and enlarged for publication in book form. Secrets of Earth and Sea is modern, interesting and reliable, and is easily the best thing in popular science that has appeared in several years.
