GLOBAL HEALTH: FACTORS CONTRIBUTING TO LOW VACCINATION RATES IN DEVELOPING COUNTRIES: NSIAD-00-4

Global Health: Factors Contributing to Low Vaccination Rates in Developing Countries: NSIAD-00-4

U.S. Government Accountability Office (GAO)

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 40 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO examined some of the key issues involving vaccine availability for children in developing countries, focusing on the: (1) locations where shortfalls in immunization coverage are most prevalent; and (2) factors that impede vaccine availability in these locations. GAO noted that: (1) while global immunization coverage for six diseases originally targeted by the World Health Organization...

Reviews

It in one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Camylle Larson**

Undoubtedly, this is actually the very best job by any writer. It is loaded with wisdom and knowledge You will not really feel monotony at anytime of your respective time (that's what catalogs are for concerning when you check with me).

-- **Prof. Lawson Stokes IV**

This is actually the very best pdf i have read through right up until now. This really is for those who statte there was not a well worth looking at. Your lifestyle period is going to be convert as soon as you total reading this article publication.
