These feelings to convey some information; uncertain weather or dark weather. a squeaky voice or low. a light or heavy objects. Normal circumstances. for our perception of the outside world has enough. but we feel sometimes wrong. if we want to understand exactly things should quiz. measuring them. For example. to know that a pineapple's important. you should use the measurement tool - the balance and a unit of measurement - grams. Said the weight of the pineapple is equal to the weight of the weights weight to make the balance at one end and the other end of the pineapple. Measurement is heavy volume number of grams. seconds. meters . the weight. time. distance. and with digital. The humanity very early like water. sand flow in such a regular phenomenon. Some measurement tools than others to be more precise. Such as stopwatch accurate compared with ordinary table. The ordinary table only indicates the seconds. while the stopwatch accurate to one hundredth of a second. Should be a reasonable choice to fit the needs of most measurement tools. When measured on a thing. it is sometimes difficult or even impossible to directly measure. We can not only measured with a ruler put the height of the pyramids of Egypt. So. how...
