

Bulletin - United States Geological Survey Volume 441-443 (Paperback)

By Geological Survey

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1911 Excerpt: .later months there was more activity in mining, so that the total copper production from Prince William Sound for the year 1909 is approximately equal to the production for 1908. At the Ellamar mine, at the town of Ellamar, most of the work in 1909 was devoted to the construction of a dam to exclude the sea from the ore body, which outcrops at and below the level of high tide. It is expected that with the protection afforded by this dam most of the ore between the surface and the 100-foot level can be removed. At the Bonanza mine, on Latouche Island, the first half of the year was devoted to further exploration in the lower level, which resulted in the discovery of more ore, and to the removal of part of the mine dump, so that the ore between the quarry floor and the...

Reviews

This pdf is fantastic. It is really basic but excitement from the fifty percent in the book. Your lifestyle span will be change as soon as you full reading this publication.

-- **Yolanda Nicolas**

The publication is great and fantastic. I actually have read through and i am sure that i am going to planning to go through yet again yet again down the road. I realized this pdf from my dad and i encouraged this publication to understand.
