RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 66 pages. Original publisher: McLean, VA : Office of Congressional and Public Affairs, Farm Credit Administration, 1998 OCLC Number: (OCoLC)41236148 Subject: Agricultural credit -- United States -- Periodicals. Excerpt: . . . FCA 1998 Mid-Year Report 12 hog loans (see Chart 13). Prices for these Chart 14 Chart 13 commodities are forecast to remain weak. AgAmerica District AgriBank District as of June 30, 1998 However, dairy loans represent 12 percent of as of June 30, 1998 total loan volume, and these loans will likely benefit from a stronger dairy market. The AgAmerica District has its highest loan portfolio concentration in corn at 14. 2 per-cent, beef cattle at 10. 0 percent, and wheat at 8. 1 percent, all of which face falling prices (see Chart 14). However, AgAmerica shows loan portfolio diversity and overall low con-centrations, which should dampen the effects of declining prices in certain commodities. Asset quality currently remains at a high level. Gross Loans: 7. 5 billion Gross Loans: 16. 9 billion The Farm Credit Systems loan portfolio re-mains in solid condition as measured by credit classifications in relation to risk...
