RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 88 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1836 edition. Excerpt: . . . and November; but in such situations it does not ripen seed, so that it would be desirable to keep some of them in the greenhouse, and treat them as Balsams and similar Annuals: so managed they will flower from July to November. 528. Coreopsis Aurea. --Golden Coreopsis. Class 19th. --Syngenesia Frustranea. It is a hardy Biennial, remarkable for the beauty of its heads of flowers, which are large, bright yellow, and supported by long slender stalks. It rises in height about three feet, and is a native of North America. 529. Cotoneaster Frigida. --Mountain Cotoneaster. Class 12th. --Icosandria Di-Pentagynia. It forms a small but very handsome deciduous tree, with snow-white blossoms, during April and May, and in September and October it produces bunches of bright red haws, extremely pretty. It is perfectly hardy, and may be increased abundantly by grafting upon the Whitethorn stock....

Reviews

This written book is great. I am quite late in start reading this one, but better then never. You will not really feel monotony at at any moment of your time (that's what catalogues are for about when you check with me).
