

Yellowstone: The Super-Eruption Has Begun (Paperback)

By K R Nilsen

Createspace, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In the new apocalyptic novel, Yellowstone, New Hampshire-based author K.R.Nilsen creates a cooperative, self-contained, and highly self-sufficient community by the name of Independency, Minnesota. Populated by little more than 100 techno-agrarian pioneers, they build a new social and economic model that shuns global hyper-consumerism for a mode of living that places value on extreme self-reliance; hands-on food, goods, and energy production; personal and community-wide thriftiness; zero waste, nonviolence; and hard work for the benefit of all. The novel opens with the buildup of geological forces within the 1,500 mile volcanic caldera that underlies almost the entire length and breadth of Yellowstone National Park, the largest such caldera on earth. The eruption that ensues is based on scientific evidence of a stupendous super-eruption of the caldera 2.1 million years ago, the ashfall from which buried one third of the contiguous United States under tens of millions of tons of volcanic debris and caused global temperatures to plunge precipitously for more than a decade. Join members of the self-reliant Minnesota town as they endure hellish struggles against torrents of ash,...
