

First Science Book: Physics and Chemistry (Classic Reprint) (Paperback)

By Lothrop Davis Higgins

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****. Excerpt from First Science Book: Physics and Chemistry This book is designed to serve as an introduction to scientific study, and at the same time to present a thorough course in the science of common phenomena. Whether the pupil has been prepared by courses in nature study or by his independent observation of things about him, he will find many subjects that are already known to him here treated in a manner which should explain the mysteries and clarify his ideas. Finishing this course, the pupil should be well fitted to take up the science studies of preparatory schools, and should have a store of serviceable knowledge. In adapting methods and language to the view point of young pupils, the author has drawn upon an experience of several years with them. While it is one object of the book to teach the terms and expressions of science, care has been used to keep the meaning clear. Methods of treatment that easily convey wrong impressions have been avoided, as well as those which offend pupils of grammar school age. An...
